

RPW230 Problem Solving in PTW

Project Evaluation: Problem Statement (PS)

The checklists indicate project elements where your submission meets expectations, and if applicable, where it still could benefit from further development or continued refinement. (The key to the evaluative comments is included below the checklist.) Your score by category appears in the Project Evaluation to the right.

Evaluation Criteria: Content

- # Memo is framed properly, provides appropriate context & discussion of the submission, & requests appropriate action regarding the accompanying project.
- # Statement doc provides a complete, coherent, concretely detailed explanation of the challenge scenario selected by the team to anchor the project series.
- # The problem statement provides a concise, effective distillation of the problem background, impact, & stakes. In doing so, the statement identifies the core problem / problem set for the scenario.
- # All content is organized effectively & appropriately to complement the document's structure & design.

Evaluation Criteria: Design

- # Memos meet format and layout expectations for the genre.
- # Statement doc meets the design specs established in the project description.

Project Evaluation

Total Points (100 possible)	#
Content (40 points possible)	#
Design (40 points possible)	#
Professionalism (20 points possible)	#

Evaluation Criteria: Professionalism

- # Submission includes the required, properly labeled files in appropriate formats posted to the designated location.
- # Submission demonstrates consistent professionalism & attention to detail.
- # Written content is grammatically sound.
- # Written content is stylistically appropriate (economical, direct), & utilizes audience-appropriate terminology.

Evaluation Criteria Key

- 1 exemplary, minor flaws only
- 2 strong, much more successful than not
- 3 evident, would benefit from more revision
- 4 particularly weak, needs significant work
- 5 missing or greatly misunderstood
- na does not apply to this submission
